ABOUT THIS ISSUE

Nick J. Thierry

For our first issue of 1998 we covered major competitions in Canada, the United States, Germany, and Britain.The elite of world swimming is getting ready for the World Championships in Perth with the swimming events scheduled January 12–19.

The SWIMNEWS team will give extensive coverage to this major event on the 1998 calendar. Nick Thierry and Karin Helmstaedt will be working for the Organizing Committee providing information to the 1000 accredited media from TV and the written press. You'll be able to follow everything on our web site at **http://www.swimnews.com**. We plan to up-date the site twice daily, after the prelims and following the finals.

Cecil Colwin profiles famed Australian Coach Joe King. His story is remarkable and inspirational. King is battling cancer, but was well enough to be presented with an Australian World Team shirt at a recent ceremony in Brisbane.

Russ Ewald writes a profile of Tom Dolan, the World and Olympic 400 IM champion whose breathing problems continue.

On page 17 you'll find a Top 10 World Junior Ranking for boys born 1979 and later and girls born 1981 or later. These are the same age categories as those used in the European Junior Championships.

Karin Helmstaedt previews the World Championships, with what to expect in Perth and highlights from the seven previous championsnhps.Thanks to Cheryl Gibson from Edmonton for giving her thoughts on the three championships in which she competed. Her 200 backstroke time of 2:14.23 from the 1978 Worlds still stands as the Canadian Senior Record.

During the middle of December the story of three prominent Russian swimmers testing positive broke and Karin Helmstaedt writes on the circumstances around this latest episode of drug use.

A two-week postal strike stopped all Canadian subscription renewals. About a third of the clubs have yet to return their list of 1998 subscribers. Please do this as soon as possible.

TAG tag times have been received for most competitions up to the end of November. From December we have only included the NYAC-hosted Youth Cup and the Prairie Invitational in Winnipeg, as these were sent by courier and arrived in time for inclusion. Other competitions in December have not as yet been received.We would like to remind meet hosts of major competitions to courier their printed results as soon as possible after the competition. Please, no diskettes.

Happy New Year.

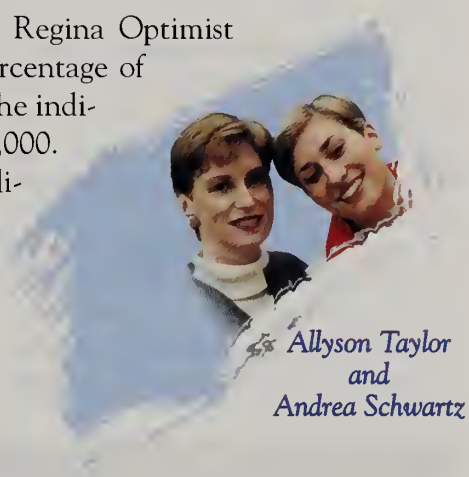
A Great Fund Raiser!

Early in November 1997 a brochure was sent to swim clubs across Canada to see what level of support there was for a high-quality cookbook to use as a fundraiser. Designed specifically for Swimming Canada by nutritional experts, this book will contain 20 colour photographs, 212 pages of high-flavour, healthy eating recipes.

Even with such short notice, I am pleased to report there is enough interest and enthusiasm to proceed with *Winning Recipes*. As of early December, 20 clubs of all sizes across Canada have agreed to include this unique book in their fund-raising plans for 1998.

I am a swimming Mom and the Director of Fund Raising for the Regina Optimist Dolphins. We are always looking for quality projects with a high percentage of return. *Winning Recipes* will sell for $20.00 with $10.00 being kept by the individual clubs. In Regina we expect to raise between $10,000 – $15,000. With the help of our service club sponsors, The Optimists, as an additional sales team, we can add significantly to these totals. Now that *Winning Recipes* is a GO, clubs that have not been able to commit to the project as yet still have time to participate. *Winning Recipes* is expected to be available by mid-April 1998. This project is fully endorsed by Swimming Canada.



Allyson Taylor and Andrea Schwartz

Allyson Taylor, Director of Fund Raising
Regina Optimist Dolphins

WORLD RECORD FOR JENNY THOMPSON

AT SHORT-COURSE TUNE UP MEET BEFORE WORLDS

ETOBICOKE—Jenny Thompson came to win. It was evident that she would make every final swim count. Over the two days of competition she won the 100-200 free, 50-100 fly, and the 100 IM. Her 50 fly time of 26.48 established a new world record (FINA ratified on Dec.16). This was a "soft" record as it was held by Misty Hyman and was her split in the final race of the 100 fly at last April's short course world championships. Hyman finished third in that race.

"I told a couple of my friends jokingly before I came up here that's the one thing I want to do here," Thompson said. "To get that record."

Her exam schedule conflicts with the US Open so this meet is one of the final tune-ups before the worlds.

Thompson is completing pre-med school and hopes to gain acceptance into medical school. She graduated from Stanford in 1995 with a Human Biology degree. She continues to train there, long course in the mornings and short course yards in the afternoon.

Thompson was not the only American ready now for world class times. Lea Maurer (formerly Loveless), 26, is a full-time school teacher and training for the worlds in January with long-time coach John Collins at Badger SC. She was counting the days remaining (41 to her event) and was ready now; her 59.61 in the 100 back is proof. She swam the prelims of the 200 back in 2:08.73 but couldn't stay for finals as she had to fly back to New York and work the next day. A week later she swam 1:01.83 (long course) at the US Open. She is determined to be at her best in January.

Cristina Teuscher, also with Badger, won the 200-400 IMs. She swam in an early heat of the 800 free, finishing third. And she would have won the 400 free, after her prelim time of 4:09.49.

Canada's World Championship team was present and in varying stages of their preparation. Top prospects like Curtis Myden and Jessica Deglau were in good mid-season shape. Others like Marianne Limpert and Joanne Malar were under a heavier workload.

Myden was second in the 400 free, third in the 200 back, and first with 2:00.86 in his specialty, the 200 IM.

American backstroker Lea Maurer

Deglau was third in the 400 free and 100 fly, and first in the 200 fly with a 2:11.39.

Limpert was third in the 100 free, fifth in the 100 breast, and second in both the 100 and 200 IM.

Malar won the 400 free and 800 free with solid in-season times. She was particularly pleased with her 800 time of 8:40.27, a mere three seconds off her best ever.

Mark Versfeld was impressive with his backstroke wins with 55.50 and 1:58.09, and he added the 100 IM with a 56.87.

The best of the new faces was Kristy Cameron, Huron Hurricanes, with her 1:10.65 and 2:29.37 breaststroke times. She made giant steps since last spring, when her best times were 1:14.13 and 2:38.72.

The format of the meet followed the World Cup order of events over two days.

Andrew Chan, ETOB, won 200 breaststroke

Shamek Pietucha

US OPEN

PIETUCHA DOUBLE WINNER IN FLY

Foreign swimmers made the most of the U.S. Open, none more so than the Canadians who picked up 4 firsts, 6 seconds, and 10 thirds. Canadians attended in large numbers. It was a long course tune-up for those preparing for the world championships in January. Others were still trying to qualify for a spot on the Canadian team.

Shamek Pietucha, Edmonton and the University of Virginia, was down to his final try at a spot on the world team. He was at his best ever in both butterfly events, winning the 100 in 54.30 and the 200 in 1:59.85. Unfortunately, neither time was good enough for selection. Both times were the sixth fastest time ever by a Canadian.

His misfortunes started at Summer Nationals when his second place finishes missed the required selection standard for the Pan Pacific Team. With no Canadian team participation planned for the World Student Games, Pietucha met the required selection times established by SNC and funded himself to get to Sicily. He finished second in the 100 fly with 54.33, and third in the 200 fly with 2:00.66, again missing the world championship qualifying times.

Other Canadian winners at the U.S. Open were Brent Sallee, 1500 free, and Curtis Myden, 200 IM. Two Canadian got seconds: Michael McWha in the 400 free and Andrew Chan in the 200 breast.

American men managed to win both backstrokes, with world-leader Lenny Krayzelburg in strong mid-season times of 55.27 and 1:59.20. Patrick Fowler, 17, won the 100 breast and Tom Wilkens won tthe 200 breast. Robert Margalis, 15, took the 400 IM in 4:23.26.

All freestyle events were won by foreigners—from Lithuania, Brazil, Hungary, Spain, and Canada. Where have all the American freestylers gone?

Among women, only Martina Moravcova, SMU and Slovakia, stemmed the American tide. Moravcova won the 50-100-200 freestyles and 200 IM, and added a third in the 100 fly.

Kristine Quance put on her usual display of versatility with wins in the 100-200 breast, 200 fly, and 400 IM. Her times indicate very fast rested swims in Perth.

BRITISH WINTER CHAMPIONSHIPS

HICKMAN BETTERS BRITISH I.M. RECORDS

32 SWIMMERS TRAVEL TO PERTH

Anita Lonsbrough

SHEFFIELD—James Hickman, the 200 butterly world short course champion, overcame his problems of recent months to collect three titles. They could have been four but for a technical problem in the final of the 200 butterfly. He qualified for the British World Championship team, something he missed out on last summer at the European Championships when he was sick.

Just two days prior to the championships getting underway, Hickman parted company with his coach, Dave Calleja, after a long association. Hickman claims "it is purely personal and has nothing to do with his coaching."

The coach-swimmer partnership started when James was young but in recent years their relationship has often been very volatile. Hickman benefited with a gold at the European Juniors in 1993, a Commonwealth bronze in 1994, a swim in the finals at the Atlanta Olympics and the short course world title in 1997.

Hickman is full of praise for Calleja's coaching methods but feels "I have matured of late and obviously you change as you get older, and I think it is time for something different. When I return from Perth I will then consider my future."

He may be only 21, but has a wealth of experience behind him.

At these Winter Championships, Hickman bettered two British records in the individual medleys.

After missing the 200 fly in Sevilla due to illness, he wanted a fast time to move up in the rankings and to let the rest of the world know that James Hickman was still up there knocking on the door.

Hickman put all doubts about his fitness behind when he posted a 1:58.33 for the 200 fly, just 0.18 seconds short of his British record.

His joy was short-lived and turned to frustration when Ian Turner, coach at the University of Bath, lodged an appeal, because his swimmer Eddie Clements in lane three, dislodged his starting block at the start. The appeal was upheld, and the race was to be reswum. When the race would be held again took over an hour to settle. Eventually it was decided to have it as the last race on the fourth day. To Hickman's relief his time was allowed to stand for selection to the team going to Perth.

Hickman got on with his other events, winning the 100 butterfly in 53.76, another individual qualifying swim for Perth, and adding the 4x100 medley relay to the team.

Stephen Parry, a bronze medallist in the 200 fly in Sevilla, flew home from his American university team, arriving in Britain just three hours before his swim. He clearly was tired from his trip and offered no opposition to Hickman.

On the third day of the championships Hickman erased the oldest British record, Neil Cochran's 2:03.74 in the 200 IM from 1987. Hickman's time was 2:02.74.

Deryk Snelling, the Director of Performance, punched the air with delight, saying "at last we have a medley swimmer." Snelling's exuberance is not matched by Hickman. He is much more cautious. He knows he may be the best in Britain but he has a long way to go to be world class. His breaststroke is weak and if he is to become a contender, he would have to spend a lot of time working on it. His main goal remains the butterfly.

On the final day, Hickman erased the 400 IM record with a 4:22.24.

He then announced that he did not wish to swim again in the 200 butterfly. "I've won enough," he said. He'd done what he set out to do in the event the first time around and had nothing more to prove.

For his efforts, Hickman was chosen for the Alan Hime Trophy for the best male performer at the Championships. The British Swimming Writers awarded him the Pat Besford Award for Outstanding Swimming of the Championships.

Helen Don-Duncan received the best female performance award for her British record in the 200 backstroke with 2:13.82.

Helen and her coach, Ivor Tattum, had planned to break the British record but not at these championships. When rested, they are hoping the time will drop to 2:12.

Carolyn Foot, 33, the oldest competitor on the British team, erased Susan Rolph's record in the 50 butterfly with 28.16. She also won the 100 fly in 1:01.84.

200 fly specialist Margaretha Pedder improved her 100 fly to 1:02.44, finishing second.

Spots on the men's 4x200 freestyle relay were hotly contested, and Mark Stevens was determined to have one of them. He was a member of the squad in Atlanta when they finished fifth, and swam in the heats in Sevilla but was dropped from the final when the team took the gold. A much slimmer Stevens swam to a personal best in winning the 100 free in 50.66, and the 200 free in 1:50.33.

The women's 4x100 free relay will have two newcomers. Melanie Marshall, 15, earned a spot with her 57.62 and Karen Legg, 19, with her 57.97. They finished third and fourth behind Claire Huddart and veteran Karen Pickering.

Huddart posted a personal best in winning the 200 free with 2:01.67.

Another fast-improving prospect is Jessica Craig, 17, finishing second in the 200 free in 2:02.15 and winning the 400 free in 4:15.70, a two second drop since the European Championships last August.

TEN SWIMMERS ADDED TO WORLD TEAM

A total of 32 swimmers will represent Britain at the 1998 World Championships in Perth.

The final list of additions:

Men: James Hickman, Richard Maden, Darren Mew, Marc Spackman, and Mark Stevens.

Women: Jessica Craig, Vicki Horner, Karen Legg, Melanie Marshall, and Katy Sexton.

They join the 22 swimmers who earned their selection at the European Championships last August.

200 backstroke record for Helen Don-Duncan

European champion British team rates as a medal prospect in 4 x 200 free relay for Perth

FOURTH-PLACE FINISH PREDICTED FOR GERMAN WOMEN IN PERTH

Hans-Peter Sick, Karin Helmstaedt

REGENSBURG—"Franzi" is back....or is she? After a self-imposed rest following the Atlanta Olympics, a motorcycle accident in May had Franziska van Almsick out of commission for the Europeans in August. She showed up in Sevilla as a guest commentator for ZDF television, vowing to go on to Perth as a contender.

So when the 19-year-old glamour girl of the German swimming scene arrived in Regensburg for the World Championship Trials, her first real competition appearance, she was more than a little nervous. "I'm missing power and muscle in my left arm where my wrist was broken," she said. "I'll only qualify for the relays in Perth." Her goals had been modified; having entered the 100 and 200 freestyles, the 100 fly and 200 IM, she scratched the fly and medley events before the first heat was swum.

After finishing sixth in the 100 freestyle with a 57.16, she was unsure as to the outcome of the 200 two days later. She walked around the venue steely-eyed. When the 200 freestyle brought the expected result, Kerstin Kielgass in first (2:00.63), Dagmar Hase in second (2:01.69) and van Almsick in third (2:02.17), the Berlin native was relieved and happy. Surrounded by TV cameras, photographers, and journalists, she smiled and said, "My heart lost many, many heavy rocks. In Perth I can go two seconds faster."

Despite the fact that second-placed Hase opted out of the 200 freestyle in Perth to concentrate on the 400, van Almsick said she would not defend her title in the individual event saying, "When I can win a medal I will take the chance, but at the moment I'm a long way from the medal rankings in Perth." She will compete in relays only and head women's coach Achim Jedamsky confirmed that she will be considered an alternate in the 400 freestyle relay as well.

The final test for van Almsick before Australia will be an event in late December in Hamburg organized specially for her. "Now I have seven weeks of training and then we will see," she said cautiously.

The van Almsick comeback overshadowed other champions in Regensburg, such as Sandra Völker, who won the 50 free (25.38), 100 free (55.72) and the 100 back (1:02.00), beating European champion Antje Buschschulte (1:02.65), who will swim only that event in Perth.

The men's 200 freestyle was another "oldie" event; Jörg Hoffmann won it for the first time in his 10- year career. The 27-year-old clocked 1:50.59 ahead of Steffen Zesner (1:50.83), who is three years older than Hoffmann. The former world champion in the 1500 in Perth 1991 announced that he would no longer compete in the long distance internationally. "I will concentrate on the shorter distances now," he said. In the 400 he had no problem holding off the youngsters, finishing with a lead of nearly seven metres.

The German coaches anticipate a fourth-place finish for the German women in Perth (behind the USA, China, and Australia). For the men it will be a difficult task to medal, with the possible exception of relays. In the shuffle of another trials for Perth, two members (Lars Kalenka and Uwe Volk) of the Sevilla team didn't make it. Only two newcomers were added to the Perth team, Nicole Hetzer and Stefan Herbst. Critics complained that the team from Sevilla should have been automatically selected for Perth, and that an extra trials at this time of year was not necessary or

HOW AN AGE-GROUP PARENT BECAME AN OLYMPIC COACH

When Joe King started to coach his twin daughters, he soon had a squad of about thirty youngsters under his tutelage. Before he knew it, he had become hooked on the sport.

Cecil M. Colwin

Joe King, the 86-year-old Australian swimming coach, is probably the world's oldest swim coach. He's not only the oldest, but also one of the sport's feistiest and most successful.

You'll have no problem spotting Joe King at a swim meet. Just look for a white-haired, suntanned gentleman in a maroon track suit. Yes, always a maroon track suit. Not for Joe King the designer golf shirts worn by fellow coaches, most of whom are about two generations younger. Wearing his familiar track suit is Joe's way of showing that he is there to do a job; to be always in the thick of things, just like his swimmers.

And, when warm-up time is over, Joe stands on the deck, radiating enthusiasm and good humour, cheerfully chatting to coaches and swimmers alike. You'll rarely see a coach so obviously enjoying every moment of a swim meet.

I spoke to Joe last year at the Australian Olympic trials at Homebush, Sydney. "If anyone had told me that I would one day coach, or manage, an Australian Olympic swimming team, I would have said: You're stark, staring mad. In fact, I had been very ill with ulcerative colitis, and I was in a bit of a mess as a result. I was as thin as a whip. Mahatma Gandhi would have looked like 'Jake the Fat Man' compared to me."

Joe took ill in 1949 and was in poor health for a few years, but it was about this time that he became interested in swimming. One of his twin daughters contracted meningitis at the age of seven weeks and, as a result, she became totally deaf. When she was older, Joe decided to enrol her in a swimming club to broaden her social skills.

"An Interfering Age-Group Coach"

One Saturday, Joe King was sitting at the pool watching the coach work. "I thought to myself: 'Well, I don't know anything about this sport, but if I can't do better than that, I'll eat my hat.' " The result was that Joe started to coach his daughters. "I started off as an interfering age-group parent, you might say. Then their friends saw what was happening, and they wanted to come along."

Soon, King had a squad of about thirty youngsters under his tutelage and, before he knew it, he had become hooked on the sport; so much so that, in 1956, when the Australian Olympic team arrived from their pre-Olympic training in Townsville to train in the Valley Pool in Brisbane, King spent day after day watching them train.

"I was amazed at their freestyle arm action, and the way they got their shoulders well into the stroke. One of the very interesting aspects of that training period at the Valley Pool was that they trained on pure oxygen. They had tanks of oxygen there, and immediately after an effort swim, they would go to the tank, clap the mask on, and then inhale pure oxygen."

King became so absorbed in coaching that he worked about 15 hours a day, coping with his regular job, while at the same time improving his knowledge of coaching.

SPORT The Library Darrin Braybrook

Gentleman Joe King

A Difficult Choice

At this early stage of his coaching careeer, King was faced with the choice of either retaining his regular highly-paid job as circulation director of Queenland Newspapers or becoming a full-time coach. It is common knowledge that a coach renting a public pool could never be sure of not being outbid at the end of the rental period.

King thought long and hard about the problem. Finally, the difficulty involved in retaining a long-term tenure of any pool in Queenland deterred him from giving up his existing job. King said: "A swimming pool tenure rarely lasts longer than three years, at which point someone is bound to outbid you eventually, and so you would lose the use of the pool."

King couldn't see the benefit in conducting a full-time coaching school. It would have involved turning in a very good job with a high salary, so he decided to carry on coaching part-time. "I never imagined where I would finish up," he said.

An Impressive Coaching Record

Joe King became an assistant coach at the Leander club, one of Australia's most famous, and eventually became the head coach. In addition to his full-time job, and his part-time coaching, Joe King astounded everybody by successfully coaching netball and basketball at the same time. "I undertook these extra assignments so that I could involve my daughter with a variety of different people and thus broaden her horizons."

Joe King says that he had no formal training in how to coach swimming "perhaps only a natural aptitude." It was not until 1965 that he produced his first Australian swimming champion, a girl by the name of Jill Groeger. "She went to the last of the British Empire Games in Kingston, Jamaica, in 1966. She was a very good flyer. She got beaten by a fraction of a second by Lyn McClements who went on to win the Olympic butterfly title in Mexico City two years later. That's the way it works out in sport, I suppose," says King. "You have to be 'spot on' at that particular moment when history is being made."

Another of Joe King's early swimmers, Joanne Marnes, was selected for the Australian team at 12 years of age, when she broke the Australian record for 200 breaststroke. In the other States they could not believe that she had broken the 200 record at this tender age, and even though she didn't participate in the trials she was selected for the team.

Joe King developed a spectacular coaching record over the years, made all the more meritorious by the fact that he remained a part-time coach, while continuing to hold down a demanding full-time job that carried great responsibility. Yes, this amazing, erstwhile age-group parent, went on to produce Australian champions in all strokes, swimmers such as Hayley Lewis, Lisa Curry, Rebecca Brown, Michelle Pearson, Judy Hudson, Paul Moorfoot, Sue Landells, Jill Groeger, Joanne Marnes, Lindsay Spencer, Alison Smith, Glenda Robertson, Joe Dixon, and many, many others. Yet, for thirteen years, Joe King was never appointed to coach an Australian team, probably because he was "only a part-time coach, a hobbyist, as it were!"

Appointed to National Teams

"At that time the officials were responsible for appointing the team coaches. It was not until the 1976

Montreal Olympics that I was appointed manager of the swimming team. In 1978 I was a coach for the Edmonton Commonwealth Games team. That was a rare mile-stone in my coaching career. After that, I was on every Australian team, and had some great experiences."

"One tour that stands out in my mind was a six-nation meet in 1983 at Chundo-do, 3000 kilometers deep into China. It was quite a revelation. I can't remember the point score, because this was some time ago. The meet was efficiently conducted, and they were eager to learn. They invited Coach John Rogers and myself to give an in-depth coaching seminar.

"One of the things that I thought would influence their swimming was that the Chinese people from the countryside were brought up on very basic sustinence foods. They were living very close to the earth, and I felt that they had the physical resources to become great swimmers. At that stage, their team was under the charge of a Chinese coach; East German coaches had yet to visit China. After that, their women's performances seemed to predominate."

King said that he was coach of the Australian Commonwealth team in 1986 at Edinburgh. He didn't represent Australia again until 1992 at Barcelona. "But, even though I wasn't officially on any team at that time, I travelled at my own expense to meets where my swimmers were competing on the Australian team."

Training to Race Well

King's swimmers produced some outstanding performances at the 1990 Commonwealth Games, where his swimmers won 9 gold medals, and Hayley Lewis became the first woman to win 5 golds.

King said that, although he wasn't on the team, he coached his swimmers to be self-sufficient and capable of performing well on their own.

King coaches on the basis that a swimmer needs two things to win a race: speed and endurance. "In my squad, everything they do has to be oriented towards racing. I want them to do the job absolutely perfectly all the way."

Perhaps the most impressive aspect of Joe King's approach to coaching is that he never loses sight of the fact that he is not only training swimmers to swim fast, but also to be able to race well. He says: "All your training should be devoted to the end goal of racing. A swimmer should develop good habits, not bad habits. Good habits should become engrained in the subconscious mind so that the swimmer will not be able to do it in any other way.

"It is remarkable to what extent lack of concentration will adversely affect a swimmer's performance. For example, you see a large number of swimmers who swim around the black line, instead of on it, and, as a result, they will swim further than they have to do; inevitably this sloppiness will add to their racing times."

Asked how he impressed these important aspects of racing upon a swimmer's mind, King said that he achieved this goal by having the swimmer swim a time trial at the start of a training session. This becomes an actual rehearsal of the race, to be done with error-free swimming. This means having the swimmer swim straight down the centre of the lane, insisting that the turn be absolutely "spot on," and that the finish also be as perfect as possible, with no breathing once the swimmer has passed under the flags, doing everything as absolutely perfect as possible.

King says that when his swimmers enter the water to start a training session, they have to dive off the starting block as if they are actually starting a race for the gold medal.

Joe at work SPORT The Library Mike Larder

Genetic Superiority of Champions

King doesn't believe it possible to coach an average, ordinary individual to a championship standard. "They need to have genetic superiority over other individuals in the sport of swimming. The funny thing about it is that the genes are passed down over the years, and all of a sudden, they match up, and a supreme athlete is born. It spreads away again, and it never seems to happen again in the same family. It's amazing; there's only one instance I know of in Australian sport where this has been contradicted, and that was with the two Konrads, and they were different sexes. There was never another boy the same, and never another girl the same."

King believes that, at the present time, Australia's level one coaches are not applying enough attention to stroke correction. "They are tied up with the modern terminology of stroke rate, etc. Now, I cannot come to terms with stroke rate unless you have stroke distance at the same time, because, if your stroke length is not relevant, stroke rate is entirely unrelated to speed through the water. I believe that the most important factor is stroke length: the application of force against the water. For instance, if you double your stroke rate and decrease your stroke length by half, all that you are doing is that you're burning yourself out faster, with no gain in speed. "

Still talking about stroke rate, Joe King said: "I've developed a reputation for knowing a little bit more about breaststroke. What I find is that in about 90% of young breaststroke swimmers, they don't apply the hand and forearm efficiently against the water. The reason is that they slide the hand across the water without really catching the water, and they turn over too fast. In the case of Rebecca Brown, I changed her arm-stroke completely by making her roll her arm right over until her thumbs were pointed down, with the whole of the hand and forearm against the water. Then she squeezes the elbows down and inward, in front of the body. I felt that gave her greater application against the water."

When asked about what we can do in the future to make swimming more efficient and more fish-like, and what our swimmers will be doing in another 40 or 50 years time, King replied: "I don't know. If I knew, I would be applying it today, but it makes me wonder what will happen in the search for greater application on the water."

King came back to represent Australia as a coach at Don Talbot's request. "I had four swimmers on the 1992 Barcelona Team. Don wanted me on the team and asked me to put my name forward for nomination, and I did, and thoroughly enjoyed it. Barcelona was a great meet, and I enjoyed the experience all over again."

Postscript: As you read this, Joe King is critically ill and fighting the battle of his life in a Brisbane hospital, with most of Australia's swimming family saying a prayer for him.

AMERICAN PROFILE: TOM DOLAN

HIS CAREER IS UP IN THE AIR

Russ Ewald

The toughest foe for Tom Dolan is not another swimmer. It's a condition called exercise-induced asthma that causes difficulty exhaling, dizziness, coughing spells, and occasional blackouts during his grueling workouts for the taxing 400 individual medley. He keeps an inhaler poolside for emergencies. But at a Christmas training session in Hawaii three years ago, Dolan passed out from hyperventilation and had to be taken by ambulance to a local hospital.

Nonetheless, the tall, lean American has overcome his opponent to set the world record in the 400 IM at the 1994 World Championships, win that event at the 1996 Olympics, and better three American records (500 and 1650 yard free, 400 IM) at a single NCAAs (the first since Matt Biondi to do so).

Dolan has been so successful in the pool in spite of his condition because of the combination of extraordinary natural talent and a tremendous competitive drive.

"He has the lean body and is extremely flexible," describes Jon Urbanchek, his coach at Michigan for three years. "He is so flexible he should be in the circus. You should see the way he can bend over backwards. He can do things with the body that are unbelievable. He was made for swimming, almost like an eel sliding through the water."

Dolan's body-fat count has been measured at a miniscule four percent.

Rick Curl, who has seen Dolan struggle with asthma for eight years as his club coach, says, "To deal with the condition as long as he has is a credit to his competitiveness."

That competitive nature helped Dolan shoot up to the top in his first year at Michigan. Challenged in workouts by teammates Eric Namesnik, then the American record holder in the 400 IM, and Marcel Wouda, the European double IM champ for Holland this past season, Dolan dropped his 400 IM time more than eight seconds and set the world record.

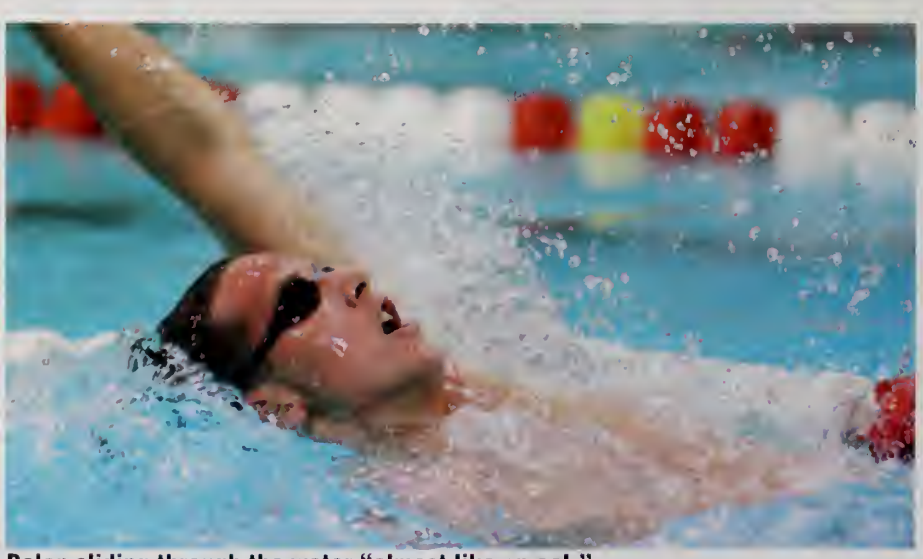
"What made him explode the first year was his substantial background as a club swimmer," explains Urbanchek. "He did a lot of overdistance training. That and the daily dog-eat-dog competition in workouts from his teammates brought out the best in him."

For all the problems the asthma has caused Dolan, he sees some positives in struggling with the condition.

"It's made me so mentally tough when I step on the blocks," he says. "When I've gone to a meet, I've gone through so much more than anyone else to get there that it's a huge edge for me."

Since the Olympics, though, his opponent is gaining on Dolan. Whereas the asthma used to bother him only during workouts where he pushes himself to the brink or in-season meets when he's more broken down, it's now hampering his performances in the big meets.

- In Atlanta, he struggled with his breathing the final half of the 400 IM because of the heavy humidity. While he managed to edge Namesnik for the gold, the winning time was 2.6 seconds off his record.



Dolan sliding through the water "almost like an eel."

- At last summer's U.S. nationals, he suffered an acid reflex—which felt like heartburn—from an asthma attack during the 400 free and wound up last.
- At the Pan Pacific Championships in Japan, he stopped momentarily early on the last leg of a 400 IM heat, gasping for air, and finished the race in 4:30.11.
- After swimming his unshaved best of 4:28 in the morning at the U.S. Open this December, he barely completed the 400 IM final in Indianapolis.

"It's real frustrating for me," says Dolan. "I've been training real well. You work so hard and put everything into training to get to that meet and (it's frustrating) to not even be able to get the opportunity to show how hard you trained or have anything to show for it in terms of times or victories."

Dolan, who has been training at Curl-Burke and living in Arlington, Va., has seen several doctors at the Georgetown University hospital in Washington D.C. this fall. He still hasn't found an answer to his breathing problems that are exacerbated by a windpipe that is 20 percent narrower than the average person, a nasal allergy, and a deviated septum.

"There are probably six different problems that I have," he says. "We're trying to knock out one of the six at a time. It's hard because you can't take a single medication for everything that I have wrong."

Also, many drugs that could help him are banned by the International Olympic Committee because they contain performance-enhancing stimulants.

Some doctors have recommended surgery. But Dolan doesn't want to miss the training time that would entail. He doesn't foresee any problems at the World Championships in Perth because the pool is outdoors with an ocean breeze stirring the air. He trained there for two weeks a year ago at Christmastime without incident. His recent asthma attacks have all come at meets held indoors where poor circulation and pool chemicals may be the culprits.

In Perth, he'll be able to focus on just the IMs for the first time in his career because he didn't make the team in the 400 free. He's been working hard in practice on the fly, his weakest stroke.

After the championships, Dolan will decide on his future in swimming.

"I will see what can be done then because I'm just not going to last much longer (in the sport) if I have to deal with all this," he says. "It takes away from my love of the sport and my love of training. It's almost not worth it, especially with everything I've accomplished. The only reason I'm swimming now are my personal goals."

His immediate goal is to improve his world record to a time "that's not going to be touched for a long time." If he can do that, he'd then like to focus on other events such as the distance frees, 200 back, and 200 IM.

"I think I can have some great times in those

QUICK FACTS — TOM DOLAN

BIRTHDATE	15 SEPT 1975
HOMETOWN	Arlington, Va.
HEIGHT	6' 7" / 197 cm
WEIGHT	190 lbs / 86 kg
OCCUPATION	Student / Swimming
CLUB	Curl-Burke
COACH	Rick Curl

Long Course Progession

	400 Fr	200 Bk	200 IM	400 IM
1992	4:02.72	2:07.11	4:25.45	
1993	3:54.34		2:04.74	4:20.65
1994	3:52.47	2:05.87	2:08.00	4:12.30
1995	3:49.86	1:59.28	2:00.89	4:14.77
1996	3:48.99	2:00.87	2:00.20	4:12.72
1997	3:55.58		2:01.18	4:17.13

events," says Dolan.

He's shown his potential already with a 3:48.99 win in the 400 free at the 1996 Olympic trials, a 15:18.18 in the 1500 in 1994 and a 1:59.28 in the 200 back at the 1995 nationals.

"I feel he would have been our (the USA's) answer to (Kieren) Perkins in the distances if he had concentrated on them," says Urbanchek. "Then again, he could be one of the best breaststrokers in the world, or backstrokers."

Following the World Championships, Dolan will return to Michigan to complete his studies. He plans to graduate in December. He is majoring in economics with minors in communications and psychology. He makes a good living through endorsement contracts with Nike, RPR Pharmaceuticals, Breathe-Rite nasal strips, the Clif Bar nutritional supplement, and public speaking appearances. His two-year Nike deal is reported to be worth $100,000. He also made the cover of the Wheaties cereal box.

Whether Dolan can last until the next Olympics is up in the air. As he says, "The bottom line is if I have good air, that's all I need."

HISTORICAL OVERVIEW

PERTH PREVIEW

Karin Helmstaedt

How times have changed. With the proliferation of swimming competitions in the last few years, there is little time for dawdling. Gone are the long "Olympic" cycles of four years with long training periods, one or two tapers and competitive peaks, followed by a designated rest. These days, swimming at the world level means being part of an increasingly international showcase where the trend is a go-go-go program of seemingly endless travel and competition. In a twelve month period, many swimmers could typically take in up to five legs of the World Cup, a short course World Championships, a university championships, a leg or two of the Mare Nostrum series, their own country's Nationals, and a Pan Pacific or European Championships. And after all of that, the next big meet is never far off.

January 1998 will see the swimming elite off to Perth, Australia, for the VIII World Aquatic Championships, once the high-point competition mid-way through an Olympiad. Long course and always outdoors, the Worlds were inaugurated in 1973 in Belgrade. They were held again in 1975 and 1978, after which they were put onto a four year cycle to complement the Olympic Games. The 1990s were to be the something-for-everyone decade, however, and in 1993, the creation of the short course world championships ended the reign of the long course swimmer. Along with the increasingly popular World Cup events, the short course worlds brought the glamour back to 25m racing.

Canada's Cheryl Gibson attended three world championships (1975, 1978, 1982) and one Olympics (1976) over the course of her career and remembers the worlds as "big" events with atmosphere, but more manageable and conducive to learning than a Games:

"By the time I went to Berlin I felt like I had much more control of the situation. I had been to a world championships and an Olympics, which are much bigger. Then to go back to a nice little world championships is much less of a scary thing. Worlds are a major competition again but not as overwhelming. They're a lot more comfortable from the athlete's perspective. It's much easier to get around and do things."

Having already hosted a successful Worlds in 1991, Perth is counting down to another powerhouse event with top performances and its own share of surprises. The past year's top performers, such as homegrown Michael Klim and Costa Rican Claudia

Cheryl Gibson

Poll, will be among those to watch. Sprint Tsar Alexander Popov is expected to impose with his usual class. The Americans, minus Gary Hall but with other tried and true performers and a few hot newcomers, will be looking to re-establish themselves after the beating they took in Rome in 1994. After their performances at their National Games in October, the Chinese women will be under a microscope and so will FINA's testing procedures. The issue of drugs will be paramount, as it is clear that from the inception of the championships, they have been more or less a vehicle for the chemical distortion of the sport.

HOW IT WAS

1973 Belgrade, YUG, September 1-9

The first world championships marked the takeover of the East German women who claimed 10 titles and 7 world records. At 14, Kornelia Ender was a formidable talent winning four golds and a silver, while her teammates Ulrike Richter, Anke Hubner, Gudrun Wegner, and Renate Vogel, to mention a few, were also startling in their overwhelming success. Any amazement at the time has since been dispelled; former world champion breaststroker Renate Vogel, among others, has since told how she received anabolic steroids in her early teens and was able to make huge drops in time after the 1972 Olympic Games.

On the men's side, Roland Matthes was a double winner in the backstrokes.

1975 Cali, COL, July 22-27

At 1000 metres altitude, the Colombian city of Cali presented a few challenges. The American men, led by triple gold medallist Tim Shaw, were still ruling the pool while the East German women maintained their hold on the women's competition. Of note was Shirley Babashoff of the USA, who stole the 200 freestyle victory from rival Kornelia Ender.

Canadian Nancy Garapick took silver and bronze in the 200 and 100 backstrokes respectively, while Cheryl Gibson remembers the less savoury sides of the competition:

"Cali was my first international team, and I'm quite sure that I didn't know very much about what was going on. I think I was seventh in the 400 IM and all I remember is that I wanted to get out of there and go home. We were staying at a seminary, and they didn't take as much care then with food as they do now. We had to be very careful. They didn't have bottled water or anything so all we could drink was Coke, and that's not really what you feel like drinking every day in those situations. The place we stayed in didn't even have hot water. That was my first taste of international competition, but I obviously got over it, because I carried on!"

Surprisingly, the American women were the stars of the show as the East Germans had an uncharacteristic dip in performances. The likes of Tracy Caulkins, Linda Jezek, and Cynthia Woodhead slowed the advance of the Wundermädchen, who garnered only one gold with Barbara Krause's 200 freestyle. The GDR press agency ADN noted that "our swimmers hadn't been able to make much improvement over their times from the July national championships (...) Two years before the Moscow Olympics, it is a clear warning sign that our methods require re-evaluation." An ironic statement indeed.

Americans dominated the meet with a total of 37 medals, 20 of which were gold.

Canadians shone and were touted as "Canada's best international representatives," bringing home one gold, one silver and four bronze, their best showing ever at a world championships. Graham Smith was victorious with a world record effort in the men's 200 IM (2:03.65) and Olympic silver medallist Gibson took bronze medals in both backstroke events, setting Canadian (still stands) and Commonwealth records in the 200 race.

Cheryl Gibson remembers:

"In 1978 I had just come off the Commonwealth Games where I had swum okay but hadn't really done what I wanted to. World Championships were about two weeks later and that two weeks made all the difference. What I had struggled to do before was suddenly easy. Apart from hitting my taper right on, I think that for me the pressure of having the Commonwealth Games in my home town (Edmonton) was off, and I was much more relaxed in Berlin. I also had a great time in Germany and thought Berlin was just a wonderful city. I visited the Egyptian museum and lots of other things, and had lots of apple strudel too! We didn't get to go to Europe very often in those days so it was different. It was a wonderful World Championship experience for me."

1982 Guayaquil, ECU, July 29-August 8

For Canadians 1982 was memorable for the exploits of Victor Davis, who followed up his silver medal in the 100 breaststroke with a blistering 2:14.77—a world record—in the 200 breaststroke. Breaststrokers were on, as Anne Ottenbrite rounded out the medal total with a silver and bronze in her events.

While the Americans battled Montezuma's revenge, the Europeans came back in full force: Michael Gross of West Germany, Jörg Woithe of the GDR, and Vladimir Salnikov of Russia helped to relegate the USA to second place in the medal standing—behind the tiny German Democratic Republic.

The GDR women were back on track and formidable, as Dave Johnson observed at the time, "They could have fielded a relay making finals in the men's freestyle and medley relays." Fifteen-year-old Cornelia Sirch had the best performance of the meet in the 200 backstroke, obliterating the existing world record of 2:11.77 and setting the new standard at 2:09.91. This was cause for some suspicion as Sirch had been ranked only 29th the previous year. Her teammate Petra Schneider dominated the IMs and set a world record in the 400 (4:36.10) that would stand for over fifteen years. And at 16, Kristin Otto won 100 backstroke, her first of a large collection of world titles.

Cheryl Gibson remembers:

"Guayaquil was a big disaster for me. I think I was just not rested enough. We had had Nationals and a training camp and my coach wasn't with me throughout it. It just made the crap-shooting of the taper that much more difficult because there were new people involved. You go through all this work and then you try to taper but there isn't enough time."

1986 Madrid, Spain, August 17-23

After the political boycott of the 1984 Olympic Games, the round-up was an important one, despite the ravaging of several teams by intestinal flu. As had become the trend, East Germany was out in full force, winning a total of 30 medals and leaving the USA in second with 24.

Kristin Otto, foreshadowing her amazing Olympic success in 1988, showed an amazing versatility, winning golds in the 100 free, 200 IM and two relays, and silvers in the 50 free and 100 fly.

Michael Gross, or "the Albatross" of West Germany, repeated his wins in the 200 freestyle and 200 fly. Tamas Darnyi of Hungary won both of the men's IMs, establishing himself as the one to beat for years to come.

The drama of the meet was the disqualification of 100 breaststroke winner Adrian Moorhouse of Great Britain. The gold went to Canada's Victor Davis—Moorhouse was disqualified for a butterfly kick on the turn.

1991 Perth, January 7-13

Of note in Perth was the small but powerful Hungar-

ian team and the gradual onset of the Chinese women, who went home with 4 golds. Germany showed up for the first time as a unified team, and the disappearance of the GDR women made for a drop in the overall level of the women's competition.

Australians remember the heartbreaking loss of the men's 1500 in which Kieren Perkins battled former East German Jörg Hoffmann, who most recently admitted to having used performance-enhancing drugs for a short time during his career behind the Iron Curtain. Both swimmers bettered the previous world record held by Russian Vladimir Salnikov. Hungarian Tamas Darnyi, unbeaten in the IMs since 1985, reached the pinnacle of this career in Perth, winning both IMs in world record time, and cracking the 2-minute barrier in the 200 with a time of 1:59.36.

Mark Tewksbury, Canada's only medallist in Perth:

"Winning a silver medal means knowing that I can do a best time and race when it really matters. It was amazing how in control and relaxed I was. I knew I had done everything possible to swim fast that day. I remember thinking during the race, 'this is so easy.' I just focussed on my own race, not letting anyone else distract me. With 20 m to go I thought I could win it. I didn't tie up. Finally it all came together. It took three years to get here, but it's well worth it."

1994 Rome, ITA, September 5-11

The Chinese women were the talk of the championships as they took over where the East Germans had left off and captured 12 of 16 titles in Rome. The anthem played over and over, and the Chinese coaches put all criticism and suspicion down to racism. They had egg on their faces a few weeks later when seven of their swimmers, including two world champions, tested positive at the Asian Games in Hiroshima. This did not affect the numerous world records established in Rome, however.

The exceptions were Australia's Samantha Riley, a double winner in the breaststroke events, and Franziska van Almsick of Germany, whose famous 200 freestyle victory will be remembered for years to come; van Almsick miscalculated in the morning and finished ninth, only to squeak into lane eight when teammate Dagmar Hase, sick with the flu, scratched from the final. In the evening, van Almsick broke the world record, touching in 1:56.78. The towering Claudia Poll of Costa Rica came onto the scene in the same event, taking the bronze in 1:57.61.

In men's competition the Americans took another blasting from the media, with Tom Dolan their only individual gold medallist in the 400 IM. The Russians were strong with double gold medallist Alex Popov, Denis Pankratov, and Vladimir Selkov, but could not catch the Americans, or the Swedes, in the relays.

BACKWASH

Backwash features short clips, gossip, letters and opinions. Contributions are welcome. Now for the rumours behind the news.

Carvin out of Worlds: Chad Carvin, who made a comeback this year after being sidelined the Olympic year with a heart problem, will miss the World Championships because of a nagging back problem. Carvin, 23, who was named USS Swimmer of the Year for 1997, qualified for the championships in the 200, 400, and 1500 frees and 800 relay. He won four events (200, 400 and 1500 frees, 400 IM) at the U.S. spring nationals and two (400 and 1500 free) at the summer nationals in 1997 and earned the men's Kiputh Award as the high scorer at both meets. If his back doesn't improve, he plans to retire.

Crunch time: We have written about scholarships in Canadian universities quite a number of times in the past 20 years. The need has been obvious. Now the issue seems to be coming to a head. Western and Atlantic universities want athletic scholarships now. Ontario universities are adamantly opposed. A split in the CIAU is likely over the issue. The CIAU has announced a mediator will be hired to help settle the issue.

Cash always in good taste: American swimmers will earn prize money for medals: $20,000 for gold, $10,000 for silver and $5,000 for bronze at the World Championships in Perth. US Swimming will provide the funds.

Next World Championships: Barcelona and Fukuoka are candidates for the 9th World Championships in 2001. The winning candidate will be selected in January by the FINA Bureau. Edmonton is bidding for hosting rights to a future short course World Championships, either in 2000 or 2002.

Brazilian swimmer positive: Former national record holder (100 fly) Hugo Duppre has been suspended for four years by the Brazilian Federation after testing positive for the anabolic steroid Nandrolone.

World Cup: From seven competitions in 1997, it increases to nine in 1998, and probably 10 or more in 1999 as Edmonton, AB, is seeking hosting rights. Prize money increases to US $9,000 for a category points winner, $4,500 for second and $2,000 for third. A bonus of $2,000 for a world record will be available.

1988 FINA Marathons: 12 competitions will be held in 1998. Each competition may offer prize money as, for instance, the Coronda to Santa Fe 57km swim, which will have $30,000 prizes in total. US $47,000 will be available as prize money at the end of the series for the top six point getters.

Adios y hasta la vista: Martin Lopez-Zubero, 28, Spain's most successful swimmer, has retired. He holds the world record for the 200 backstroke for both long and short course pools.

Winner of the 200 back in 1992 at the Barcelona Olympics, he won European titles at four different championships going back to 1989, winning his last title this past summer in Sevilla. He won two World Championship races, the 200 back in 1991 and the 100 back in 1994.

He was born, raised and trained in Jacksonville, Florida, but chose to represent his Spanish father's native Spain.

Editor: Canadian swimming has a great reference tool in your magazine. It enables us to track the advancement of Canadian swimming from the grass roots all the way to the international level. It enables us to make comparisons not only within the senior ranks but age group level as well.

Fortunately or unfortunately, as the case may be, we can also compare our results now with our results in the past.

Clearly the glory days of Canadian swimming on the international scene are gone. Long gone.

One has to question whether the coaches at the national level in our country are riding on past laurels. The saddest and most disturbing part of this statement is that everyone knows it, but everyone is scared to say it.

Someone should have said it after the Seoul Olympics in 1988. Someone should have said it after the 1990 Auckland Commonwealth Games, after the 1992 Barcelona Olympics, and after the 1994 Victoria Commonwealth Games.

Canada's hero, Mark Tewskbury, barely saved us from the embarrassment of having no individual medallists at swimming's biggest dance in 1992. But how much longer can we ride on his success?

Can we afford to be blind to the problem for five more years or do we have to start laying some blame, as uncomfortable as that may be? Someone has to point the finger. Seeing that nobody else is prepared to do so, my finger points to the highest of the high performance coaches. Dave Johnson is not doing his job.

Johnson reported after the Commonwealth Games in 1994 that our lack of success on the international level was due to him not receiving talented age group athletes. Checking American age group rankings, one discovers that our age group swimmers are on par with the development of American age groupers who year after year develop into the strongest swimming power in the world.

You do not have to be a swimming genius to conclude that somewhere between age group swimming and the international stage, Canadian swimmers are not receiving the same degree of coaching that is apparent in the U.S.

Eventually, the only solution to this problem will be to change leadership in Canada.

There is no leading and little management. Coaches of up-and-coming swimmers receive little direction.

What has Dave Johnson done for you coaches working with the next wave of swimmers? If you are fortunate enough to get a swimmer that you can develop to the international level, has Dave Johnson helped you get them there? No, but he will then step in and take not only control but the credit as well.

We need a leader that can help develop the talents of Matthew Huang and Courtney Chuy, examples of the best prospects last summer.

We heard all about Dave Johnson's plan in the January and February issues of SWIMNEWS. Go back, read the articles, and decide for yourselves:

- Does Dave Johnson come up with some concrete solutions?
- Has Dave Johnson come close to satisfying any of those initiatives?
- Is Dave Johnson serving Canadian swimming the way it deserves to be served?

I call for all other coaches that feel the same way I do to stop mumbling about it behind closed doors and come forward and help make the difference.

Steve Sadownik,
Lethbrige, AB

Editor: I just wanted to say that SWIMNEWS is a great magazine. The stories and photos are the best, and every month I can't wait to read the next issue. I enjoy reading about swimmers and swim meets that go on all around the world. It helps me keep in touch with my own personal goals as a swimmer. Every time I read SWIMNEWS I read about someone I aspire to be like, and someday hope to accomplish the same achievements and more. I was also wondering if you could tell me exactly how many days there were until the 2000 Olympics.

Mike Jotautas
Dorado Stars, Brampton, ON

The 2000 Olympics in Sydney, Australia will be held from September 15 to October 1. The first day of swimming is September 16. That means that as of January 1, 1998, there will be 990 days left to get ready.

Editor: Vancouver Pacific head coach Craig Potsep's enthusiasm for SWIMNEWS speaks well for your publication (SWIMNEWS, October 1997 Backwash). But for you to go too far along with his suggestion that "Canada should be the main focus of your magazine" is, I think, a backward step.

As you know, I have watched the growth and development of your magazine from day one. I have seen it grow from its "wing and a prayer" black and white launch, with its decidedly Canadian tilt, to its present sophisticated format with the whole swimming world its catchment area. The challenge for Canadian swimming is to shine on the world stage—nothing less. When it does shine SWIMNEWS showcases it. When it doesn't shine, SWIMNEWS lays out, in great detail, where the improvements have to be made and challenges met.

I'm sure that Craig, possibly without realizing it, is contributing to this philosophy. Step one, for his swimmers to see their names, in a climbing mode, in the TAG listings. Step two, for them to be mentioned in articles of "Making Waves." Step three, earn the kudos of having them featured with photos in SWIMNEWS. Then to giant step four, to have their photo on the cover when and only when their achievements merit the swimming community's attention.

In short, stick to your focus on the world of swimming, with Canadian swimming part of that world.

Bernie McGrath,
Gibson's, BC

Remember … It's not true until it has been officially denied

DRUG SUSPENSION

LET 'EM EAT CAKE

Karin Helmstaedt

After the puzzling announcement that world record-holder Denis Pankratov would not be travelling to Perth for the World Championships in January, the Russian National Team has been further whittled down by the positive drug tests of three of their top-level Russian swimmers.

Another serious blow indeed. The swimmers, European champions Natalia Mesheryakova, Vladimir Pyshnenko, and European championship silver medallist Olga Kochetkova, reportedly tested positive for the anabolic steroid mentandienone and also a masking agent (Pyshnenko) during a training camp in Cyprus in October. The tests were conducted and announced by the Russian Olympic Committee.

All three swimmers, coached in Samara by Andrei Zelenyaev, were subsequently removed from the national team and the president of the Russian Federation, Gennadi Aleshin, confirmed that they will not travel to Perth. Zelenyaev has subsequently lodged a protest and a mysterious settling of scores is in the air. According to German sources (DPA) he disputed the positive tests as a "provocation," saying that his swimmers received the banned substances unknowingly in a cake brought to them by a former pupil of his.

The positives have put the Russian Federation in a risky position; according to FINA rules, if four swimmers from one country test positive within a 12-month period, that country's federation can be suspended from international competition for up to four years. Another slip-up could bar sprint star Alexander Popov, who wears Russian colours despite being an Australian resident, from competing internationally. The high profile Mesheryakova won the 50 freestyle in Sevilla in August, while her husband, Pyshnenko, was part of the gold medal-winning 4x100 freestyle relay.

When two Russian swimmers, Andrei Korneev and Nina Zhivanevskaya, tested positive for the stimulant Bromantan at the Atlanta Olympics, they were let off because the too recently identified substance had not yet made it onto the official IOC list of banned drugs. If there is truth to the rumours, someone decided, for whatever reason, that three Russians would test positive, proof that the testing can be efficient when it wants to be.

As SWIMNEWS goes to print FINA has turned down the appeals of the three Russians and suspended them for two years, effective October 18.

Alexei Kolesnikov was suspended for three months, effective Januray 1, for taking cannabis.

Ukrainian swimmer Olena Lapunova was provisionally suspended, pending a hearing for taking a steroid (mentandienone).

HOW TO SUBSCRIBE

If you would like to become a regular subscriber to **SWIM**NEWS use this form. There are various kinds of services available.

- **In Canada** regular $30 subscriptions are sent second class mail. Delivery times are a week or longer depending on the distance. Faster service (3 to 5 days) is available for $65.
- **US subscribers** $35 US ($48 Canadian) expect 5-7 day delivery.
- **Foreign subscribers** $45 US ($60 Canadian) can expect 7-14 day delivery worldwide.
- Payment by cheque, international money order from a bank (payable on a Canadian bank), or VISA credit card. Sorry, we don't process any other cards for now. Cheques payable to SWIM Magazine
- We also publish the FINA Annuals for long and short course. Information and cost below.

400 freestyle		4:42.52

SPEEDO®

Patricia Noall on the Speedo Stroke Monitor. National Swim Team Member and Canadian Record Holder

"Really Neat! It gives me INSTANT feedback on cycles per minute and distance per stroke. I can get a lot of information with the Speedo Stroke Monitor without a lot of equipment, and I can train on my own."

Joanna Lee, 13
Club: Mississauga Aquatic Club
Coach: Mark Temple
Specialty: Breaststroke
3rd ranked for SCM98 TAG in the 100 and 200 breaststroke

Best Times	*SCM97*	*SCM98*
100 breaststroke	1:20.21	1:15.00
200 breaststroke	2:51.29	2:39.75

Speedo® Stroke Monitor

- The world's first swim stroke monitor.
- Provides instant feedback on the quality and intensity of swims.
- Revolutionary technology that will make swims more effective, efficient and easier to track.
- Automatically measures all critical aspects of swimming efficiency, effort and technique.
- Helps to optimize technique—analyze the effectiveness of stroke adjustment– develop muscle memory–pinpoint stroke deficiencies, all immediately after each swim.
- Ideal for competitive and recreational swimmers, triathletes, and coaches.
- Sleek, high-tech design is equally appealing for use as a conventional timepiece out of the pool.
- Cyclists have cyclometers, runners have pedometers…and now swimmers have the Speedo® Stroke Monitor.

Features

- Water resistant to 330 feet.
- Easy to operate.
- Crisp, clear, back-lit LCD display.
- Quick-change strap.

Functions

- Time/Date (12/24 hour format).
- Swim Mode (any distance to 99,999).
- Swim Recall (30 swim memory).
- Chronograph.
- Timer (CDS, CDR).
- Alarm.
